

**AUTOMATED SPE POSITIVE PRESSURE MANIFOLD – 1No.
Doc. No: ST/12/SPE Vacuum/2016-17/39**

Application:

To extract biological and food samples.

Features:

- Cost effective and flexibility
- Economical
- High throughput
- Zero Cross Contamination
- Chemical resistant
- Small footprint
- Uniform flow from well to well

Specifications:

1. Manifold with 48 Sample Positions Positive Pressure
2. 48 positions sealing gaskets
3. Rack for SPE columns
4. Collection tubes 12 x 75mm, 12 x 32mm, auto sampler
5. Gas supply adaptor
6. Disposable valve liners
7. Waste trap
8. Maximum flow pressure: upto 100psi

Optional Items: Any additional accessories required to complete the system to be quoted.

Spares required for 5years to be quoted under optional items.
